Section 3: Composition/Information on Ingredients

CAS	Component	Percent
7631-86-9	Silicon dioxide	5 - <10
64742-46-7	Distillates (petroleum), hydrotreated middle	5 - <10
13463-67-7	Titanium dioxide	1 - <5
7429-90-5	Aluminum	1 - <5
1333-86-4	Carbon black	0.1 - <1

Section 4: First-Aid Measures		
Inhalation:	IF INHALED: Remove to fresh air. Get medical attention if symptoms occur.	
Skin Contact:	IF ON SKIN: Wash with soap and water as a precaution. Get medical advice/attention if symptoms occur.	
Eye Contact:	IF IN EYES: Flush eyes with water as a precaution. If eye irritation develops and persists: Get medical advice/attention.	
Ingestion:	If swallowed, DO NOT induce vomiting. Get immediate medical attention if symptoms occur. Rinse mouth thoroughly with water.	

Section 5: Fire-Fighting Measures	
Suitable Extinguishing Media:	Use carbon dioxide, regular dry chemical, alcohol-resistant foam or water.
Unsuitable Extinguishing Media:	None known.
Specific Hazards Arising from the Chem	lical
Hazardous Decomposition Products:	Upon decomposition, this product emits carbon oxides, silicon oxides, formaldehyde, and metal oxides.
Special Protective Equipment and	
Precautions for Firefighters:	Exposure to combustion products may be a hazard to health. Firefighters should wear full-face, self-contained breathing apparatus and impervious protective clothing.
Specific extinguishing methods:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Use water spray to cool unopened containers.
	Remove undamaged containers from fire area if it is safe to do so. Evacuate area.

Section 6: Accidental Release Measures		
Personal Precautions, Protective Equipment and Emergency Procedures:	Follow safe handling advice and personal protective equipment recommendations.	

Environment Precautions:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminate wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and Materials for Containment and Cleaning Up:	Absorb with inert absorbent material. For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbent. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases.

Section 7: Handling and Storage	
Precautions for Safe Handling	
Protective Measures:	Handle in accordance with good industrial hygiene and safety practice. Take care to prevent spills, waste and minimize release to the environment.
Advice on General Occupational	
Hygiene:	Do not eat, drink, or smoke when using this product.
	Wash thoroughly after handling. Wash contaminate clothing before reuse.
Conditions for Safe Storage, including	
any Incompatibilities:	Store and handle in accordance with all current regulations and standards. Keep in properly labeled containers.
	Keep separated from incompatible substances.
Incompatibilities:	Strong oxidizing materials

Section 8: Expo	osure Controls/Personal Prote	ction
Component Exposure Limits		
CAS	Component	Exposure Limits
7631-86-9	Silicon dioxide	OSHA Z-3: 20 million particles/ft3 (Silica) TWA (dust); 80 mg/m3 / %SiO2 (Silica) TWA (dust)
	Silicon dioxide	NIOSH REL: 6 mg/m3 (Silica) TWA
h4/4/-4h-/	Distillates (petroleum),	OSHA Z-1: 5 mg/m3 TWA (mist) OSHA PO: 5 mg/m3 TWA (mist)
	hydrotreated middle	NIOSH REL: 5 mg/m3 TWA (mist); 10 mg/m3 ST (mist)
13463-67-7	Titanium dioxide	ACGIH: 10 mg/m3 TWA
10400-07-7		OSHA Z-1: 15 mg/m3 TWA (total dust)

Product Identifier: ASI 600 HT Red

		ACGIH: 1 mg/m3 TWA (respirable fraction)
		OSHA Z-1: 15 mg/m3 TWA (total dust); 5 mg/m3 TWA
7429-90-5	Aluminum	(respirable fraction)
		NIOSH REL: 5 mg/m3 TWA (respirable fraction); 10
		mg/m3 TWA (total); 5 mg/m3 TWA (pyro powders)
		ACGIH: 3 mg/m3 TWA (inhalable fraction)
1333-86-4	Carbon black	OSHA Z-1: 3.5 mg/m3 TWA
		NIOSH REL: 3.5 mg/m3 TWA
Appropriate Engineering Controls:		Processing may form hazardous compounds (see section 10). Ensure adequate ventilation, especially in confined areas. Ensure compliance with applicable exposure limits. Dust formation may be relevant in the processing of this product. In addition to substance-specific OELs, general limitations of concentrations of particulates in the air at work-places have to be considered in workplace risk assessment. Relevant limits include: OSHA PEL for Particulates Not Otherwise Regulated of 15 mg/m3 - total dust, 5 mg/m3 - respirable fraction; and ACGIH TWA for Particles (insoluble or poorly soluble) Not Otherwise Specified of 3 mg/m3 - respirable particles, 10 mg/m3 - inhalable particles.
Individual Protection Eye/Face Protection		Wear safety goggles. Provide an emergency eye wash fountain and quick drench shower in the immediate work area.
Skin Protection:		Skin should be washed after contact.
Hand Protection:		Wash hands before breaks and at the end of workday.
vapor exposures below recommended limits. Where concentr are above recommended limits or are unknown, appropriate respiratory protection should be worn. Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators ag exposure to any hazardous chemical is limited. Use a positive air supplied respirator if there is any potential for uncontrolled		respiratory protection should be worn. Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air

Section 9: Physical and Ch	nemical Properties		
Physical State:	Liquid	Appearance:	Paste
Color:	In accordance with product description	Physical Form: :	Paste
Odor:	Acetic Acid	Odor Threshold:	Not available
pH:	Not applicable	Melting Point:	Not available
Boiling Point:	Not applicable	Decomposition:	Not available
Flash Point:	>100 ℃ (closed cup)	Evaporation Rate:	Not applicable
OSHA Flammability Class:	Not classified as a flammability hazard	Vapor Pressure:	Not applicable
Vapor Density (air = 1):	Not available	Density:	1.007
Specific Gravity (water = 1):	Not available	Water Solubility:	Not available
Log KOW:	Not available	Coeff. Water/Oil Dist:	Not available

KOC:	Not available
Viscosity:	Not applicable
Volatility:	Not available

Auto Ignition:	Not available
VOC:	Not available
Molecular Formula:	Not available

Section 10: Stability and Reactivit	ty
Reactivity:	Not classified as a reactivity hazard.
Chemical Stability:	Stable at normal temperatures and pressure.
Possibility of Hazardous Reactions:	Use at elevated temperatures may form highly hazardous compounds. Can react with strong oxidizing agents. Acetic acid is formed upon contact with water or humid air. When heated to temperatures above 150 °C (300 °F) in the presence of air, trace quantities of formaldehyde may be released. See OSHA formaldehyde standard, 29 CFR 1910.1048 Hazardous decomposition products will be formed at elevated temperatures.
Conditions to Avoid:	None known.
Incompatible Materials:	Strong oxidizing materials
Hazardous Decomposition Products:	Upon decomposition, this product emits carbon oxides, silicon oxides, formaldehyde, and metal oxides.

<u>Acute Toxicity</u> Component A	<u>/</u> nalysis – LD50/LC50				
CAS	Component	Result	Species	Dose	Exposure
		LD50 Oral	Rat	>3300 mg/kg	N/A
7631-86-9	Silicon dioxide	LC50 Inhalation	Rat	>2.08 mg/L	4 hr
		LD50 Dermal	Rabbit	>5000 mg/kg	N/A
		LD50 Oral	Rat	>5000 mg/kg	N/A

1333-00-4		LC50 Inhalation	Rat	>0.0046 mg/L	4 hr

Information on Likely Routes of Exposure

Inhalation:

Not classified based on available information.

Product Identifier: ASI 600 HT Red

Ingestion:	Not classified based on available information.
Skin Contact:	Not classified based on available information.
Eye Contact:	Not classified based on available information.
Immediate Effects:	Not classified based on available information.
Delayed Effects:	No information is available.
Medical Conditions Aggravated by Exposure:	No information is available.
Irritation/Corrosivity Data:	Not classified based on available information.
Respiratory Sensitization:	Not classified based on available information.
Dermal Sensitization:	Not classified based on available information.
Germ Cell Mutagenicity:	Not classified based on available information.
Carcinogenicity:	Not classified based on available information.

Component Carcinogenicity

Component C		Decult				
CAS	Component	Result				
13463-67-7	Titanium dioxide	IARC: Group 2B (possibly carcinogenic to humans)				
		OSHA: Not present at levels greater than or equal to 0.1% to be identified as				
		a carcinogen or potential carcinogen				
		NTP: Not present at levels greater than or equal to 0.1% to be identified as a				
		carcinogen or potential carcinogen				
1333-86-4	Carbon Black	IARC: Group 2B (possibly carcinogenic to humans)				
		OSHA: Not present at levels greater than or equal to 0.1% to be identified as				
		a carcinogen or potential carcinogen				
		NTP: Not present at levels greater than or equal to 0.1% to be identified as a				
		carcinogen or potential carcinogen				
Reproductive	Toxicity:	Not classified based on available information.				
	t Organ Toxicity –	No target organs identified.				
Single Exposu	re:					
Specific Targe	t Organ Toxicity –	No target organs identified				
Repeated Exp	•	No target organs identified.				
	03016.

Biodegration:		No infor	mation a	vailable for the product.		

Section 13: Disposal Consideration	15
Disposal Methods:	Dispose in accordance with all applicable federal, state/regional and local laws and regulations. This product has been evaluated for RCRA characteristics and does not meet the criteria of hazardous waste if discarded in its purchased form.
Disposal of Contaminated Packaging:	Dispose of unused product properly. Empty containers should be taken to an approved waste handling site for recycling or disposal.

Product Identifier: ASI 600 HT Red

Component Waste Numbers:

The U.S. EPA has not published waste numbers for this product's components.

Section 14: Transport Information

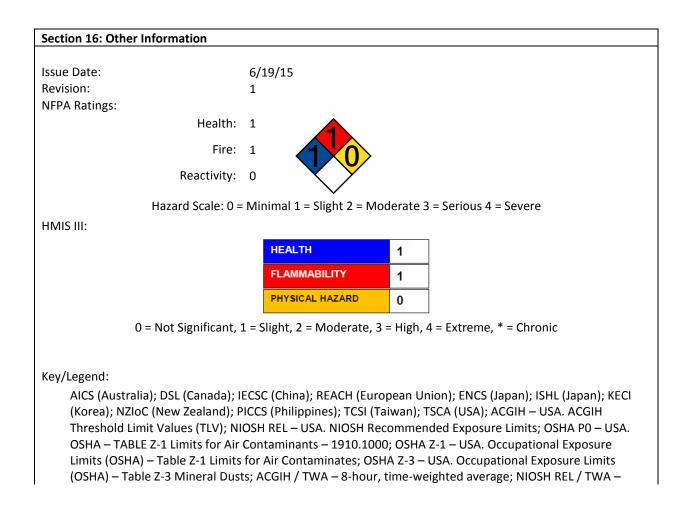

International Regulation	
UNRTDG:	Not regulated as a dangerous good.
IATA-DGR:	Not regulated as a dangerous good.
IMDG-Code:	Not regulated as a dangerous good.
Transport in bulk according to Annex	Not applicable for product as supplied
II of MARPOL 73/78 and the IBC Code:	Not applicable for product as supplied.
Domestic Regulation	
49 CFR:	Not regulated as a dangerous good.
